

## FROM OUR FARM TO YOUR CLASSROOM

EXPERIENCE THE WONDER OF HATCHING CHICKS RIGHT IN YOUR CLASSROOM WITH OUR COMPREHENSIVE AND INTERACTIVE EGG INCUBATION PROGRAM. PERFECT FOR STUDENTS TO LEARN ABOUT LIFE CYCLES AND ANIMAL CARE FIRSTHAND! IN THIS EXCITING 3-WEEK PROGRAM, EVERYTHING YOU NEED IS PROVIDED TO ENSURE A SUCCESSFUL HATCHING EXPERIENCE.

### Week 1: Kickoff with a Farmer Visit

A farming specialist from Cardinale Farms will visit your classroom to provide an interactive demonstration on chicken development. Students will receive all the necessary equipment to start the incubation process and begin the journey to chick hatching and care.

### Weeks 2-3: Incubation and Hatching

Students will monitor and begin the delicate operation of caring for the eggs with our see-through incubator. They will observe the eggs hatching and watch the beauty of chicks emerging from their shell. Once hatched, students will move the chicks to our warm brooder, which is equipped with a heat lamp, water dish, feeding tray and chick nutrients and food.

### Week 3: Chick Care and Growth

The students will embark on the next phase of caring for the chicks. This will include monitoring and recording their growth and learning their well care needs. The curriculum and worksheets will be informative and provide an amazing experience for each student.

### Program Includes:

- 1 in-class demonstration with a farming specialist from Cardinale Farms.
- 1 classroom incubator.
- 7 fertile chicken eggs with 2 weeks left of incubation.
- 1 chick brooder with heat lamp, water dish, feed tray, and nutrient supplies.
- 1 chick hatching instruction manual.
- 1 chick embryology poster.
- Curriculum and worksheets.
- Delivery and pick-up of chicks and supplies
- Free technical support.
- **BONUS:** At the end of the school year, your class will receive Free Admission to Cardinale Farms for an educational farm tour!
